Subject: Misinformation re: Sonoma County elections - Promoted by Russian Actors

Hello,

My name is Jenna Dresner, I'm the Senior Communication Manager for the California Secretary of State Office of Election Cybersecurity.

My email address is [REDACTED]@sos.ca.gov.

We've been monitoring a situation in our state where an image of ballots was circulated as evidence of voter fraud - Sonoma County has explained that this was part of a routine process to discard old 2018 ballots, as allowed by law, and has nothing to do with the 2020 election.

<https://twitter.com/darhar981/status/1309533853967671297>

Debunked

here: https://twitter.com/CountyofSonoma/status/1309588979545645056?ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1309588979545645056%7Ctwgr%5Eshare_3&ref_url=https%3A%2F%2Fobservers.france24.com%2Fen%2F20201001-debunked-viral-photos-mail-ballots-california-dumpster

While all posts around this topic are misinformation, we were just alerted to the fact that Russian Actors Amplified False Claim of Mail-in Ballots Discarded in Sonoma County Dumpster

On Oct. 1, 2020, Reuters and the security firm Graphika [reported](#) that actors associated with the St. Petersburg-based Internet Research Agency (IRA) established a pseudo news site called the Newsroom for American and European Based Citizens "NAEBC" (naebc[.]com) which attempted to influence U.S. voters ahead of the 2020 Presidential election.

It was observed that on Sept. 25, 2020, the NAEBC-associated user @LeoAlpine on the platform Parler [amplified](#) the false narrative that mail-in-ballots were recently found in a dumpster in Sonoma County. @LeoAlpine posted:

"More than a thousand mail-in-ballots found in a dumpster in California! The zip code "94928" on the ballots matches the county. This is why everyone should vote in person! #MAGA2020 #TRUMP2020 #KAG" (Figure 1).

We consider @LeoAlpine's post as evidence that Russian actors are amplifying reports of mail-in ballots.

-
-
- In addition to reposting articles from U.S.-based news outlets, @LeoAlpine frequently posted articles from the NAEBC website, with the most recent NAEBC post on Oct. 1, 2020.
- This is an indication that @LeoAlpine is closely affiliated or operated by the same actors who set up the NAEBC website.
-
-
-
- Our assessment that Russian actors are amplifying mail-in ballot errors and disinformation is consistent with American intelligence officials recent assessments, as [reported](#) by Representative Adam B. Schiff, chairman of the House Intelligence Committee.
-

Our monitoring software is investigating other NAEBC-affiliated accounts for potential investigatory leads into additional Russian information operations and any impact to California voters.

Figure 1: @LeoAlpine amplified a false mail-in ballot narrative; the narrative was subsequently debunked as the mail-in ballots seen in the photo were from 2018

Hello Team Twitter,

We received the below report from Maryland. It appears they have already reported to you all, but wanted to make sure you had for awareness.

Regards,
Brian

The Cybersecurity and Infrastructure Security Agency (CISA) of the U.S. Department of Homeland Security (DHS) is not the originator of this information. CISA is forwarding this information, unedited, from its originating source – this information has not been originated or generated by CISA. This information may also be shared with law enforcement or intelligence agencies.

CISA affirms that it neither has nor seeks the ability to remove or edit what information is made available on social media platforms. CISA makes no recommendations about how the information it is sharing should be handled or used by social media companies. Additionally, CISA will not take any action, favorable or unfavorable, toward social media companies based on decisions about how or whether to use this information.

Subject: Election Misinformation - Facebook post

At the bottom of this email is a Facebook post provided to us by the Colorado Fusion Center. The statement in the post is false. A ballot would not be invalidated simply because something was written on it.

Our office did some research on the post and found the following:

1. This is all over Facebook. The original version of this appears to have originated in Myrtle Beach Florida circa 7 October and its now making its way across the internet over the last several days.
2. Several fact-checking websites have looked into this and found it to be false – further suggesting it has gained some traction on social media – but also that it is actively being countered.
 1. <https://leadstories.com/hoax-alert/2020/10/fact-check-poll-managers-in-myrtle-beach-have-no-reason-to-write-on-ballot-and-it-will-not-be-disqualified-if-a-poll-manager-writes-on-it.html> (Published 9 October 2020)
 2. <https://www.snopes.com/fact-check/poll-workers-ballots-invalidated/> (Published 13 October 2020)

There are some use cases in Colorado where a poll worker may need to mark ballots for proper processing, but it is rare. Therefore, we do not consider this a significant threat. We still wanted to make sure you were aware.

Facebook Post:

Can someone verify this?

from someone I know and trust.

advice for voting day...from a friend [REDACTED]

Just finished Poll Manager training! I passed all the classes. I want you all to know something...if you are checking in at the polls and they happen to write anything on your ballot before they give it to you to put in the voting machine...a letter, a checkmark, a star, an R or a D any writing of any kind...please request a new ballot. Your ballot could be disqualified if it is written on. Please be on the lookout for this type of behavior.

PASS IT ON!!!!!!!

Craig Buesing
Chief Information Security Officer | Department of State

Debbie Hamilton-Smith Barb is a Republican so I guess that means it would benefit the Republican party, not the Democrats, if she were to submit these illegitimate ballots, which she cannot do. Iowa hasn't even mailed ballots out yet. It seems to me that someone out there is purposely trying to stir up trouble and cause doubt. Maybe the ballots she received should have been brought to the attention of the county auditor.

Adell Kellogg Already voted, though some have made mention they won't get to because they got the wrong ballots and now suddenly the election office is "out of ballots" so many oregonians won't be able to vote as promised.

I don't care who you're voting for, this is just wrong!

Marion County, Oregon Adell Kellogg Hi Adell. We have confirmed with the Marion County Clerk's Office that there are sufficient ballots for every voter that needs a replacement. They are still mailing ballots daily. The Senator Hearing Room (located at Courthouse Square, 555 Court St. NE, Salem) is now open for anyone that needs to come in for a replacement ballot.

Several of my CISO peers have been notified about a new group of fake twitter accounts purporting to represent States being stood up by MS-ISAC.

I've not yet received a notice from MS-ISAC but located

<https://twitter.com/officialstateil>

which was recently established and is following/being followed by known malicious handles from other states.

Thanks,

Subject: Possible misinformation on Twitter

Hello,

I wanted to flag this tweet the Washington Office of the Secretary of State's official Twitter account was tagged in. I've attached a screenshot of the post itself, and it can be found here:

<https://twitter.com/JeffKis88392967/status/1313926786804113408>

The reason I am flagging this as potential misinformation is it's not clear if this tweet is a simple statement or recommendation to "conservatives," or if this is a directive. If it's the latter, that would not be true. In Washington state, voters may return their ballots by mail, by placing their ballot in an official ballot drop box, or by visiting a county voting center.

My name is Kylee Zabel, and I'm the Communications Director for the Washington Office of the Secretary of State. I can be reached via this email or the two numbers listed in my signature block below. My cell phone is monitored after hours if I need to be reached urgently. I am also copying Washington State Elections Director Lori Augino and our Web and Social Media Coordinator Kiran Boyal.

Please let me know if you have any questions or need additional information.

Thank you.

-Kylee

Hi Art,

After additional analysis of this tweet as well as the networks of accounts retweeting it, we believe this content is likely being artificially spread by coordinated inauthentic behavior. The speed at which the video spread and the number of suspicious accounts that have retweeted the video are consistent with a coordinated inauthentic behavior rather than organic viral activity. It is likely that the coordinators of this activity were taking advantage of the livestream video opportunistically, rather than explicitly targeting the Maryland elections operations.

We believe the origin of the video to be the tweet from @AGENT_GATTACA (https://twitter.com/AGENT_GATTACA/status/1318574205445664771) and received over 7,000 retweets despite having less than 1,800 followers. Additionally, the @redwins3_first account (https://twitter.com/redwins3_first/status/1318671549193281536) is also responsible for a considerable amount of the content's reach with more than 3,000 retweets albeit with a considerably larger follower base in excess of 42,000 followers. The large number of retweets @redwins3_first's tweet received is abnormal compared to other tweeted content prior to the Montgomery County video. Furthermore, these two accounts do not appear to follow each other; however, they have 34 common followers, most of which display characteristics of inauthentic accounts. Automated or inauthentic behavior is generally characterized by:

- Recently created
- No profile image
- Excessive use of emojis and hashtags in bios
- Tweet counts not commensurate with account creation dates

We recommend sharing the joint inauthentic accounts with your Federal law enforcement partners to cross-reference their data. We've also attached a list of the accounts commonly connected between @AGENT_GATTACA and @redwins3_first for further cross-reference.

It's possible we could attempt takedown requests for these two tweets that seemingly drove a lot of the reach with this video. Due to the characteristics of disinformation, it's possible Twitter would be compelled to review the case carefully. However, there is at least some possibility that if these tweets are removed, it will be leveraged in disinformation suggesting censorship or further propagating conspiracy theories.

Let us know if you would like us to take further action or conduct additional research. We will be sure to incorporate these findings into our EoW report for posterity.

Thanks,

Misinformation report: YouTube video, also shared on Twitter, alleging conspiracy by election administration in Detroit, MI

From: Jordan Smellie [REDACTED]@ferndalemi.gov>
Sent: Sunday, October 25, 2020 10:16 PM
To: Misinformation Reports [REDACTED]@cisecurity.org>
Cc: Marne McGrath [REDACTED]@ferndalemi.gov>; [REDACTED]@detroitmi.gov; [REDACTED]@google.com; SOS, Elections [REDACTED]@michigan.gov>; [REDACTED]@twitter.com
Subject: Disinformation attack on Youtube and Twitter: "#DETROITLEAKS" video from 10/21/2020

Hello EI-ISAC,

My name is Jordan Smellie. I am the Elections Specialist for the City of Ferndale, Michigan. My email address is [REDACTED]@ferndalemi.gov.

I am reporting a disinformation (misinformation) attack video that was posted on YouTube on October 21 and repeatedly posted on Twitter since then, targeting election administration by the City of Detroit and State of Michigan and alleging an organized conspiracy by City and State employees.

The video is titled:

#DETROITLEAKS: State Employees Train Poll Workers to Lie to Voters, Destroy Ballots, Stop Challengers [sic]

The title card (which shows on Youtube's search screens and on some links) is:

"The Vote Fraud Scheme To Steal Michigan"

I have attached a screenshot of this title card, as requested by EI-ISAC.

The video can be found here:

<https://www.youtube.com/watch?v=uHeodzJ5cNM>

It was posted by this user:

<https://www.youtube.com/channel/UCWs1lWCNra9Zf8Xew9mTsw>

It has been posted on Twitter multiple times since October 21, almost entirely by @bigleaguepol ("Big League Politics"), which is a far-right site that appears to primarily invent conspiracy theories and is operated by former Breitbart News employees. The tweets about the video use the same #DETROITLEAKS hashtag as the video title. This account 'teased' the video in a tweet on October 20.

The video takes what it alleges are recordings of "State Employees" (which are more likely City of Detroit Department of Elections employees, although they do not identify themselves in the audio), and misrepresents the audio by using on-screen commentary to misinform the viewer of the video.

- From 2:32 – 4:16, the person in the audio is describing the correct process for a provisional affidavit ballot (also colloquially called a "challenged ballot").
 - At 2:42, the on-screen text claims that *"Before 2020, NO challenged ballot would go into the tabulator."* This is not true. Provisional affidavit ballots, as well as challenged absentee ballots, have always been fed through the tabulator on Election Day. That is exactly why they are prepared as correctly described in the audio (ballot number written on the ballot and covered up with a removable sticker) —which makes the claim at 3:04 completely wrong. Provisional Affidavit ballots always get voted as normal and are placed into the tabulator. Provisional Envelope ballots are sealed individually inside their own envelope (not placed into the tabulator) and are returned to the City Clerk for processing in the following days. These processes are not new to 2020; they have been in place for over a decade.
 - At 3:55, the text incorrectly claims that *"all challenged ballots WILL be counted immediately on Election Night"*, which is wrong. Provisional Affidavit ballots are counted along with all others. Provisional Envelope ballots are not.
 - 4:12 attempts to cast doubt on the process of identifying and removing a ballot deemed uncountable — which would only happen under court order, as only Provisional Envelope ballots would wind up inside the tabulator or the sealed ballot container and need to be retrieved. The video claims *"This will NEVER happen. Unless MAYBE in a recount."* Recounts have little to do with Provisional Affidavit ballots, and the assertion that the justice system would never take action to reverse proven voter fraud is entirely baseless. It serves only to cause the voter to doubt the good intentions of the judiciary and the justice system.
- At 4:20, the video refers to the Clerk's Office Voter Registration Receipt as *"an easily-forged piece of paper"*. Again, this is a baseless accusation intended only to denigrate the legal election process and cause the video viewer to feel fear and doubt the security of Michigan's election.
- At 7:30, the video insinuates that simply using *"children"* (16- and 17-year olds, allowed under state law) as election inspectors is an intentional part of a conspiracy to intentionally undermine the election.
- At 9:04, the audio and the on-screen captions describe an absentee ballot that has been *"Sent and received"*, meaning the Clerk has received the voted ballot from the voter and recorded it as such. This would have happened multiple days prior to the election. At 9:14, the video immediately turns around and ignores that by presenting a hypothetical 'scenario' where the voter might not have returned that very same ballot. This is completely contradictory, and is a total misrepresentation of the audio from the actual training scenario that has been recorded. At 9:23, the trainer in the audio even specifically says *"You've already voted."*

This video is misinformation and disinformation because it repeatedly takes normal processes being correctly described as written in state law, and alleges in on-screen text that they are somehow problematic, or will not be followed. On multiple occasions, the on-screen text directly contradicts the audio. However, these are items that would likely only stick out to an election administrator; a member of the general public would follow the video's lead and assume that there is somehow a problem being described. Furthermore, the video makes outright false claims, alleging actions that are prohibited under Michigan election law.

Copied on this email are the following individuals and offices, per the directions from EI-ISAC:

- Marne McGrath, City Clerk, City of Ferndale
- George Azzouz, Director, City of Detroit Department of Elections
- Bureau of Elections at the Michigan Department of State
- Civics Outreach office at Google
- Government office at Twitter

This video is an attack on the City of Detroit, the State of Michigan, and by direct extension, all local election administrators in the state of Michigan, such as myself. This will disinform voters outside Detroit as easily as voters inside Detroit. Indeed, the choice of words throughout the video and in the calls to action at the end of the video infer that the video's audience is primarily people who are not Detroit residents. If that audience can be spurred to create unrest in Detroit, they can easily do the same in other jurisdictions, such as my jurisdiction as Detroit's immediate northern neighbor.

Thank you for your investigation and action. If I can be of any further assistance, please let me know and I will be happy to provide support.

Best,

Jordan Smellie
Elections Specialist
City of Ferndale

Subject: Flagging Twitter Accounts

El-ISAC, CISA and Stanford Partners,

We want to highlight two accounts we found that could be used to imitate official accounts. We are unsure if there's any action that can be taken, but we wanted to flag them for consideration.

- <https://twitter.com/adcgov>
- <https://twitter.com/Adamsclerk1>

These are concerning to us here in Colorado because of the recent FBI/CISA warnings about impersonation accounts spreading false information about the election. We have recently flagged three other accounts (@c_ogov, @OfficialColorado, @COstateGov) that popped up in the last couple of weeks impersonating the Colorado state government and we wanted to highlight these new accounts for awareness.

Disclaimer: Colorado Department of State is not the originator of the above information and is forwarding it, unedited, from its original source. The Department does not seek the ability to remove or edit what information is made available on social media platforms. The Department makes no recommendations about how the information it is sharing should be handled or used by recipients of this email. The Department may also share this information with local, state, and federal government agencies.

Thanks,

Josh Craven

Subject: Queens Village (NY) residents receiving pre-filled out ballots for Joe Biden

FYSA, EIP has reported the following to EI-ISAC and twitter.

From EIP:

Twitter: EIP noticed a post by user @/jakejakeny that alleged ballots are being sent to New York City, NY, residents that are pre-filled out to favor Biden/Harris; the user alleges voters are also instructed to "turn in" the pre-filled ballots as-is. We recommend that Twitter remove [this tweet](https://twitter.com/jakejakeny/status/1321900543451799559) immediately, as it is intentionally vague so as to mislead.

<https://twitter.com/jakejakeny/status/1321900543451799559>

<https://twitter.com/jakejakeny/status/1321955007189651459>

Moments ago, @/jakejakeny went live via Periscope, [embedded on Twitter](#), and doubled-down on the narrative he asserted in the original text/photo post. He claimed (1) mail-in voting is insecure; (2) conspiracy theories about election fraud are hard to discount; (3) and that he received information about the pre-filled ballots from an unidentified, and unidentifiable, friend. He also promised to go live again tomorrow, 10/30, with "more information." We recommend Twitter removes this post immediately, as it contains a message that intends to mislead and potentially cast doubt on the legitimacy of mail-in voting in a critical pre-election period. We also recommend that @/jakejakeny is monitored through the end 10/30 in the event that he again attempts to post on this topic in a manner that casts doubt on the legitimacy of the election itself or related election mechanisms.

Additionally, @/jakejakeny is tagging major conservative pundits (e.g. users with broad reach); claims news outlet affiliation in his bio; and the post itself is spilling over onto Facebook. These factors further support swift removal of both posts and a continued monitoring of the user's account.

Subject: RE: FW: Case#CIS-MIS000076: Alleged Voter Fraud citing VoteWA.gov website

Hey [REDACTED]

Hope you all survived the hearing today. So here's the deal – EIP will only report something to Twitter if they have additional context to provide based on their research. For example, if they do analysis of the tweet and find info they think would help you all make a decision, they will send that analysis your way. They will not send Twitter reporting unless it is that additional context. They will also let CISA know when they are reporting something to you so I can give you a heads up (let me know if that makes things worse rather than better). They will continue to use the CIS case number in the email subject to facilitate identifying duplicative reports. I know that's not a great solution, but hopefully it is helpful.

Brian

Voters don't win elections, vote counters do.

Washington State in 2004 judges ignored the real count and rewarded the Democrats

**James Austin** @JamesCAAustin · 14h

The election's been deconstructed. The date doesn't matter, voters' IDs don't matter, nor does campaigning or who the Dems are running. Ballots can appear whenever, from whomever, & folks aren't voting FOR Biden & Harris, just against. Like Covid, the numbers will be meaningless.

Subject: Possible misinformation on Twitter

Hello,

I wanted to flag two tweets with possible misinformation about the election here in Washington state.

https://twitter.com/gabe_k/status/1321523966683406336 -- Ballots that are postmarked by Election Day are accepted up to 20 days after Election Day. This tweet is false.

<https://twitter.com/ReeseRe48384159/status/1321563373020983297> -- Please see the information cited above. This tweet is also false.

My name is Nick Jacob, and I'm an Executive Receptionist for the Washington Office of the Secretary of State. I can be reached via this email or the number listed in my signature block below. My cell phone is monitored after hours if I need to be reached urgently.

I am also copying Washington State Elections Director Lori Augino, Office of the Secretary of State Communications Director Kylee Zabel, and our Web and Social Media Coordinator Kiran Boyal.

Please let me know if you have any questions or need additional information.

Thank you.

-Nick

Good evening,

Please see the below report from Washington.

Thanks,

Brian

The Cybersecurity and Infrastructure Security Agency (CISA) of the U.S. Department of Homeland Security (DHS) is not the originator of this information. CISA is forwarding this information, unedited, from its originating source – this information has not been originated or generated by CISA. This information may also be shared with law enforcement or intelligence agencies.

CISA affirms that it neither has nor seeks the ability to remove or edit what information is made available on social media platforms. CISA makes no recommendations about how the information it is sharing should be handled or used by social media companies. Additionally, CISA will not take any action, favorable or unfavorable, toward social media companies based on decisions about how or whether to use this information.

In the event that CISA follows up to request further information, such a request is not a requirement or demand. Responding to this request is voluntary and CISA will not take any action, favorable or unfavorable, based on decisions about whether or not to respond to this follow-up request for information.

Subject: Possible misinformation on Twitter

Hello,

I wanted to flag two tweets with possible misinformation about the election.

<https://twitter.com/JamesCAAustin/status/1321738257399533571> -- "Ballots can appear whenever, from whomever" is false.

https://twitter.com/nifty_john/status/1321759027508908033 -- The response to the above tweet includes the following sentence: "Washington State in 2004 judges ignored the real count and rewarded the Democrats." That is not a factual statement.

My name is Nick Jacob, and I'm an Executive Receptionist for the Washington Office of the Secretary of State. I can be reached via this email or the number listed in my signature block below. My cell phone is monitored after hours if I need to be reached urgently.

I am also copying Washington State Elections Director Lori Augino, Office of the Secretary of State Communications Director Kylee Zabel, and our Web and Social Media Coordinator Kiran Boyal.

Please let me know if you have any questions or need additional information.

Thank you.
